- * **Both commuter and residential options are available.**

This summer, immerse your students in the industry they're passionate about.

If your students are looking for an immersive, educational, and real world experience this summer, RIT Certified's High School Pro-Advantage program is a great choice. We're offering a range of immersive, experience centered courses that cover different fields and industries from photojournalism to public speaking, so no matter where your students' interests lie, there's a course for them.

What You'll Learn

- > Because each course is taught by professionals working and teaching in their industry right now, students will discover what it really takes to start a career or earn a degree in that field.
- > Students will discover how it feels to work in the industry they're passionate about and what a future career in that field could look like.

How You'll Learn

- > Each course runs five consecutive days Monday through Friday from 9 am to 5 pm, but the daily structure and schedule will vary depending on what course students are enrolled in.
- > The one thing in common across all of these courses? They all center hands-on, experienced based learning so students can get an idea of what it's really like to work in the field they're learning about.

Pursue Your Passion Scholarship We are offering full scholarships to make High School Pro-Advantage courses accessible for all students.

Foundry Scholars Thanks to a generous gift from Foundry Digital, we will award 12 scholarships to students interested in the Cryptocurrency and Blockchain course.

Ideal candidates for either scholarship can demonstrate the positive impact this immersive summer course will have on them and their future career.
